

# Are You Ready to SUPERCHARGE Your Business with SUCCESS...to alter the pattern of results not matching your efforts or simply to ENJOY it more?

Every business – and those involved with it – thrive when it's in the flow. And when not, it can be emotionally and financially draining.

What does “out of the flow” look like? Maybe you're just starting out and feeling the strain of wondering when success will come. Or maybe you're confused about what to do next or feel like you've tried everything and nothing is moving your business into the prosperity you want. Maybe the energy feels chaotic, like there's no way to dig out, or relations with employees or clientele are strained.

## Your Business Has Its Own Energy Pattern

This might surprise you, but your business has a vibration all its own. And so does the...

- Leadership
- Employees/Contractors
- Line of products or services
- Clientele
- Business location
- Marketing strategy...

When each of these elements ARE ALIGNED energetically, magic happens and that is reflected in the EASY FLOW OF MONEY into your business.

When one or more of those elements is *not* aligned, the struggle begins. It could be working long hours with insignificant impact, poor sales, or poor team relations. Maybe it's lack of inspiration or clarity on the next best move.

Whatever way it shows up, misalignment stops the flow of energy...as well as the money, the creativity,

and the joy that goes along with a successful business.

The good news is that there is a way to bring alignment and flow to all elements of your business...

## Introducing the Bicoastal Clearing Group (BCG)

We are three skilled energy clearing practitioners who come together to identify and clear the points of blockage in your business energy. Working simultaneously, while each following our own unique intuitive connections, we magnify the energetic impact and produce a far more comprehensive shift than is possible working individually.

The energy of three is all about positive flow. That is exactly what we bring back to your business...and through the ripple effect, into the world. Once the energy blocks are cleared, alignment becomes easier, and the flow begins again.

## What Is the Process Like?

It's so simple. You'll have an intake meeting with one of the three Bicoastal Clearing Group practitioners to talk about your business. Tell us what's working, what's not, and the changes you'd like to see.

Then the BCG team meets on our own to complete one to two hours of energy clearing and alignment (depending on the purchased service). Together we **bring about the best and highest shift for your business** as a whole and for the components where a return to flow is needed most – all enhanced by the synergistic magic that happens when we three work together.

**A comprehensive report is provided** to convey what was found and cleared. Plus, you'll learn about the energy that was added, replenished, and uplifted to support your goals and progress. There may also be **practical suggestions** for you to implement on your own and with your team.
